Welcome to iMovie MacOS Course Outline:
Duration: 3 Hours

Prerequisites:
A basic understanding of the MacOS environment.

Course Objectives
From home video to Hollywood, learn how to create a mini feature film or movie trailer, highlights package or holiday comic strip. We'll show you how to perform the basic functions of video creation and how the amazing new features can transform your experience. Add special effects and refine your editing skills.

Setup Requirements
A Mac device that has been freshly installed with the latest version of OS 10.15 Catalina.
